Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/516,834	Applicant(s) AL-RASHED, RADI	
	Examiner Paul Marcantoni	Art Unit 1755	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, 20,21, and 23-25, drawn to an aqueous mixture comprising alkali silicate.

Group II, claim(s) 12-14 and 22, drawn to a method of coating concrete pavement using Group I mixture.

Group III, claim(s) 15-19, drawn to a method of making Group I mixture.

Note 1: If applicants elect Group I, rejoinder is possible upon finding of allowable claims with Group III. However, Group III claims must be of the same scope of the allowable claims to be rejoinderable. See *In re Ochiai*.

The inventions listed as Groups I do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is anticipated or obvious over Patel (US Patent No. 5,356,716).

Patel teaches an aqueous mixture for concrete applications comprising alkali silicate, alkali metal alkyl siliconates such as potassium methylsiliconate (see col.3, line 18 and col.2, lines 40-68), surfactant (col.4, line 1), and emulsifiers (col.3, lines 29-52). The shelf life property claimed by applicants would also be a property of Patel's mixture because he teaches the same components in overlapping amounts. As the recited claimed mixture (claim 1) does not make a contribution over the prior art, unity of invention is lacking and restriction is appropriate.

Note 2: Patel could also have been used in a rejection over Group II because he also teaches a method of coating concrete to create water repellency and also teaches the same steps. Nevertheless, the restriction was made in lieu of Group I.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 1755

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Marcantoni whose telephone number is 571-272-1373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
